

15.2.4.1 Links

Ege University organizes **free** educational programs on ecosystems (looking at wild animal and plant species) to local and national communities.

Description: **Ege University Forest School**, implemented in cooperation with the Rectorate of Ege University, Izmir Regional Directorate of Forestry and Izmir Directorate of National Education, provides education to students throughout Izmir to ensure the sustainable management of forests restore degraded forests and raise awareness on issues such as afforestation and reforestation. The scope of the project, which was established under Ege University Environmental Problems Application and Research Center, has been gradually expanded and collaborated with institutions and organizations such as the Izmir Regional Directorate of Forestry. Activities within the scope of the Aegean Forest School Social Responsibility Project continue.

The Aegean Forest School project, which aims to raise awareness and raise awareness about sustainable forests within Ege University, set out with the slogan “Green is Life” to emphasize that if forests remain green, they will be beneficial for the creatures living in forests and for everyone in society. In this context, approximately 2000 students have been trained in schools affiliated to the Ministry of National Education and the activities are continuing rapidly.
